

It Now Takes An Average of 21 Years to Pay for College

In order to provide the most effective assistance to students it's important to be fully aware of the long-term consequences of their student loan debt. The average college student is facing over 20 years of payments!

Picking Up The Slack: Uneducated Educators

Studies show students who are given access to financial literacy education succeed more in school. Yet the number of teachers, both in high school and college, that feel qualified to teach the subject are lacking!

University of Kentucky Partners with iGrad for Financial Literacy

The University of Kentucky partnered with iGrad to bring financial literacy to their students. By opening the Student Financial Wellness Center, along with the iGrad Exploratory Center, the University of Kentucky students have many ways to bolster their financial possibilities.

One-Third of New Grads Aren't Qualified for Entry Level Jobs

Employers are looking for candidates with professional experience from internships, part-time jobs or volunteer opportunities. Yet, they are having trouble finding candidates with those qualifications.
