Protecting Campuses from Cyber Crimes

Wednesday, October 28, 2020 2:00 pm EST
Registration Available Soon at www.coheao.com

Join us for an in-depth discussion provided by Gregory Garza, FBI Intelligence Analyst, covering the data protection needed on the institution level and personal data protections that can be put in place. As well as highlighting social Engineering tactics, techniques, and procedures (TTP) used to exploit people to surrender personal information, passwords, system, and network access. Definitely a presentation packed with content you won't want to miss!

The Importance of Financial Literacy During the COVID-19 Pandemic

With the rise of the COVID-19 (coronavirus) pandemic many economic repercussions have come across. In which many industries have been shut down and even more Americans are left jobless. The financial problem tried to be alleviated with the \$2 trillion economic stimulus. However to help

Americans workers now and in the future, their knowledge on financial literacy needs to improve.
